Summer in the Highlands
Welcome to the summer edition of the Randolph Quarterly. Summer is always a busy time of year for your township government with numerous services, activities, and public improvement projects scheduled. It is also the best time of year to enjoy some of the tremendous leisure and recreational opportunities that Randolph has to offer. Please take a moment to review this issue of the Randolph Quarterly to learn more about the latest township news, and the many great ways to spend your summer right here in Randolph.

To our new families just moving into Randolph, welcome to one of New Jersey’s most livable communities. A great deal of information can be found at the township’s website, www.randolphnj.org. Stop by the Municipal Building and visit the Township Manager’s Office if you need assistance.

FreeDome Festival
Randolph will be celebrating Independence Day with the annual Freedom Festival, fireworks, and parade. This year, the Freedom Festival will be held June 30 through July 2 on the campus of the County College of Morris. The festival is sponsored cooperatively between the township and the Randolph Kiwanis Club, and features food, games, activities and amusement rides for the whole family. The festival is highlighted by a parade kicking off at noon on Saturday, July 1st and a fireworks show that evening.

The festival is sponsored by the township’s Manager’s Office if you need assistance.

TOWNSHIP BREAKS GROUND ON JOINT AFFORDABLE HOUSING PROJECT
Members of the Township Council joined partners from the Morris Habitat for Humanity, staff, and associated professionals at a groundbreaking ceremony at the former EA Portal site on Bennett Avenue in the township. The ceremony kicked off the long-planned redevelopment of the former industrial site consisting of a 30,000 square foot building on two and one half acres of land located at 42 Bennett Avenue. The EA Portal Project is a partnership between the township and Morris Habitat for Humanity to redevelop the brownfield site acquired by the township through foreclosure proceedings. In accordance with the plan, the township will remediate the property and complete all site improvements necessary for the construction of housing units. Morris Habitat for Humanity will then construct the housing units, and will administer the sale of the units to qualifying purchasers.

The township will fund the site remediation/improvement phase of the project, estimated to range in cost between $1.7 and $2.15 million dollars, through the affordable housing trust fund and a contribution from the Morris Habitat for Humanity. The affordable housing trust fund is the reserve account established for affordable housing fees collected from development projects in the township. Morris Habitat for Humanity will fund the construction of the housing units through their own fundraising efforts. The site remediation and redevelopment will be estimated to take approximately 2 years. The construction of the housing units will be initiated in the years that follow.

Revaluation Update
Field inspectors from Appraisal Systems Inc. have completed their initial visits to each property within the township. In order to produce an accurate assessment of township properties, it is necessary for a representative of Appraisal Systems, Inc. to examine the interior of all buildings. If you have not had your house inspected, please contact Appraisal Systems, Inc. at 201-493-8530 and request a mutually convenient appointment. If entry of your property is not successful, the interior condition and amenities will be estimated.

All the information that is believed to have some bearing on the value of a home is being collected, reviewed, and analyzed in order to make a proper determination of the full and fair value of each property. This information, along with the findings of the field inspector, is used to establish true market value.

Regardless of when a property is visited during this program, the new property values will be determined based on their estimated market value.

Once all properties have been valued, property owners will be notified by mail of their proposed new assessed values in late November/early December 2016, and given an opportunity to schedule an informal meeting to review their new assessment with a representative of the appraisal firm. Assessment reviews will be finalized by January 2017, and the new assessments will become effective for the 2017 tax year. Any inquiries with respect to the inspection procedure should be directed to Appraisal Systems, Inc. at 201-493-8530.

Road Maintenance
In 2016 the township is planning to resurface and/or make significant repairs to 154 miles of township-maintained roadway. The township evaluates the condition of the Randolph road system on an annual basis as part of its on-going road maintenance program. The program is a collaborative effort between the Engineering and Public Works Departments. It combines an independent rating of the road system pavement conditions with the field knowledge and expertise of the Public Works Director and his team to maintain the roads. The program keeps track of the condition of all 154 miles of township-maintained roadway.

The road maintenance program is funded through the township’s Capital Improvement Program. The maintenance program is funded on a “cash”, pay as you go system, with no dedicated mill in the tax rate. This year the Township Council approved a cash outlay of over $1.5 million dollars toward the program. This investment should result in a smoother drive for motorists, and will preserve the long-term integrity of the roadway system.

A complete listing of the roads planned for maintenance this year can be found on page 8. The proposed road maintenance will be conducted between the months of June and October. The work will be scheduled generally Monday through Friday, between the hours of 7 a.m. and 5 p.m. on secondary streets, and 9 a.m. and 4 p.m. on major streets. Residents on the streets where maintenance work will be occurring will receive notice advising of the specific dates of work prior to the start of the project. No road closures are anticipated in conjunction with the work; however, temporary traffic stoppages will be necessary for safety. Please be patient with the crews conducting this important maintenance work.

Where Life is Worth Living
The Randolph Quarterly is printed and distributed to keep residents informed of the many programs and facilities offered by the township. Our community offers a wonderful quality of life for residents young and old. Take a few minutes to update your calendars on upcoming events, and keep this edition of the Quarterly handy for convenient reference in the weeks to come.
As we began enjoying the longer days and warmer weather of the spring and summer seasons, our focus naturally turned towards making plans to spend a greater amount of time outdoors. This transition offered the opportunity for me to attend events where our residents were taking advantage of Randolph’s parks, recreation programs, and open space. For example, on a Saturday morning back in April, I had the honor of participating in a long-held tradition here in Randolph Township where the Mayor throws out the first pitch at the Little League Opening Day Parade. Two weeks later, I joined several of my Council colleagues in another fine tradition, namely our biannual Clean Communities Day, where civic groups, volunteer organizations, churches and scout troops, as well as residents and businesses help to clean up our streets and public properties. Events such as these showcase both our residents’ commitment to the township’s various programs, and the collective effort to keep our community as pristine as possible.

With this in mind, the Township Council has again made sure to provide enough resources to maintain those parks and fields in excellent condition, and to set aside funds for future acquisition of open space. In May, the Council unanimously adopted the 2016 budget, which stayed well below all applicable state-mandated caps. More importantly, it adhered to what Moody’s Investors Service recently described as Randolph Township’s convention of ‘conservative fiscal management, strong financial policies and practices, ample reserve levels, and low direct debt burden.’ We continue to hold a Triple A rating from both Moody’s and Standard & Poor’s, and are one of fewer than twenty municipalities in the State of New Jersey to benefit from that distinction.

No article published during the summer months would be complete without also mentioning the township’s Freedom Festival, being held this year from June 30th through July 2nd at the County College of Morris. This celebration of our country’s spirit of liberty and independence will culminate with the Freedom Parade at noon on Saturday the 2nd, and one of the best fireworks displays in the County at dusk that same evening. Please accept my wishes for a healthy and happy summer.

Roman B. Hirniak
Mayor

DEPARTMENT OF WATER & SEWER INFORMATION

WATER CONSERVATION
The Township of Randolph performs a detailed leak detection/repair audit on the entire water distribution system, and all customers are strongly encouraged to conserve this vital resource. Water conservation is the first step in protecting our water supply. Here are a few suggestions for water conservation inside your home:

- Repair leaking faucets, pipes, toilets, etc
- Replace old fixtures, install water-saving devices in faucets, toilets, and appliances
- Wash only full loads of laundry
- Take shorter showers
- Do not let water run while shaving or brushing your teeth
- Soak dishes before washing
- Run dishwasher only when full

LAWN WATERING RESTRICTIONS
In a continued effort to conserve water, the township has implemented lawn watering restrictions from May 1st through September 30th of each year. The Randolph Township Water Department will be aggressively enforcing lawn watering restrictions. The following odd/even schedule for lawn watering is in effect for residential properties served by public water:

- Watering of properties having even numbered street addresses shall be permitted on the even numbered days of the month
- Watering of properties having odd numbered street addresses shall be permitted on the odd numbered days of the month
- No watering shall be permitted on the 31st day of the month
- Watering on the above days shall be permitted during the hours 5:00 am to 9:00 am, and from 5:00 pm to 9:00 pm

OUTDOOR WATER CONSERVATION
- Use mulch around plants and shrubs
- Repair leaks in faucets and hoses
- Use water saving nozzles
- Use water from a bucket to wash your car, and save on hose rinsing

ECONOMIC DEVELOPMENT COMMITTEE PLANNING FOR ACTIVE YEAR
The township’s volunteer Economic Development Committee (EDC) works hand in hand with the Township Council, the Township Manager, and staff to support the local business community and the township’s broader economic development goals. The following items provide information on just a few of the projects that the committee is focusing on for 2016.

Providing Support for Township Efforts to Stimulate Commercial Development/Redevelopment Projects For the past several years, the township has been working aggressively with the owners of properties approved for commercial development, or of vacant commercial space, to help facilitate development and/or redevelopment projects that will benefit Randolph Township. Members of the EDC have participated in strategic planning sessions, meetings with property owners and brokers, and potential tenants in support of these efforts. These efforts will be continuing in the coming year and it is hoped the work being put in by many will result in positive economic growth for the township in 2016.

Local Business Awards The Economic Development Committee sponsors an annual awards program designed to recognize local businesses that have achieved success and contributed positively to the community. The committee is presently reviewing nominees for the 2016 awards, and will be making presentations to the award winners at the Country Fair in October.

High School Career Day Through a partnership with Randolph High School, the EDC conducts an annual career day for high school students. The event, held in the fall, brings together representatives from local businesses as well as residents from different career fields to speak to the students and to offer insights into different career paths.

Rewinding the Randolph Local Website/Expanding EDC Communications to Other Mediums The Economic Development Committee is always looking for new ways to promote local business established in Randolph, and communicate opportunities for new business to come to the township. The committee has just initiated an effort to overhaul its website, www.RandolphLocal.com with the goal of improving the content and broadening the audience for the site. In addition, the committee is also looking at new and alternative communication mediums to expand their reach.

Developing a Partnership with County College of Morris One of the keys of any economic development plan is to emphasize the resources in a community which make it unique. One such resource in Randolph Township is the County College of Morris. The Economic Development Committee has set a goal for 2016 to connect with the leadership of the County College of Morris and explore the development of a partnership with the college on economic development efforts. The potential for such a partnership is boundless, and the committee is looking forward to future discussions with the college representatives.

Participation in the Re-Examination of the Township Master Plan The township is currently reviewing the Master Plan. The goal of the Master Plan Re-examination is to review the progress on goals set in the Master Plan as last revised, confirm that there have been no changes in policy or assumptions since the last revision, and make recommendations on changes to the plan to address new planning or zoning concerns faced by the township. The EDC is represented on the committee overseeing the Master Plan Re-examination, and has been an active participant in the discussions as they pertain to the township’s future economic growth. These are just a few of the initiatives the committee has planned for the coming year. Residents interested in the activities of the Economic Development Committee are encouraged to attend the committee meetings which take place on the first Tuesday of the month (with the exception of July and August) at 7:30 p.m. at the Municipal Building.

Summer Safety Tips from the Building Department
Summer is upon us and the following pool safety tips will help ensure a safe and fun summer:

- Check all fencing to ensure that it is secure and in good shape
- Ensure that all gates self close and latch properly
- Check with the Construction Department that your pool permit has been closed out and all inspections have passed. Your homeowner’s insurance may not be valid if the permit is not closed.

It’s barbeque season and time to get the grill fired up! Some tips to keep in mind:

- Check all hoses and connections and replace any that have cracks.
- Keep your grill a safe distance from your house.

Have a safe summer!
Randolph Police Department News

House & Car Burglaries/Theft

Residents should remember to lock their homes, as well as their vehicles while parked in the driveway. In the majority of motor vehicle burglaries within Randolph, it is the unlocked vehicles that are being targeted.

Residential: Immediately report any suspicious activity such as unfamiliar vehicles or unknown people in your neighborhood. Do not make your home an easy target, be sure to lock doors, have good lighting, and activate your alarm if you have one. Do not keep jewelry in obvious locations such as in the master bedroom in a jewelry box or on the dresser.

Commercial: Use video surveillance, good lighting, and alarms. Secure your business by locking windows and doors before leaving. If you have an alarm, be sure to set it.

Suspicious Activity

Residents should contact the police when suspicious activity is occurring so that an officer may respond with the chance of witnessing and addressing the activity as it is occurring. All too often, residents wait hours or days after the activity has occurred to report it, which results in little to no chance of determining who was involved and what may have occurred.

The summer months bring ATV and motorcycle riding, as well as drinking parties in the township parks, Randolph trail system, and the Del Ben property, all of which are prohibited. Residents should contact the police immediately to report any and all criminal mischief/suspicious activity in and around the township parks and Randolph trail system.

Remain vigilant! If you see something, say something!

Distracted Driver Awareness

In April, the Randolph Police Department participated in a crackdown targeting distracted drivers. It is our hope that crackdowns and awareness campaigns driving to light the seriousness of the distracted driving problem. Please take a few minutes to read about, and recognize, the issue of distracted driving. Then develop a simple plan so you don’t access your phone the next time you receive a text message, email, or phone call while driving. For more information, read these informative links:

IRS Tax Scams

The IRS phone call scam has become one of the most commonly used scam in recent years. A caller who claims to be with the “IRS” or the “Treasury Department” will tell you that you are behind on your tax bill or owe them money, and then proceed to threaten you with arrest unless you pay money immediately.

Countless number of people have received these calls. If you should receive a call like this, do not provide them with any personal information or any form of monetary payment. Just hang up to end the call.

Fire Department News

Outdoor Burning

According to the National Fire Protection Association, outside fires or fire pits have caused nearly 3,700 grass and brush fires, and total outdoor patio heater or fire pit injuries have nearly tripled in six years. Below are some tips to help keep your family safe this season:

• Closely supervise all outdoor fires; make sure the fire is out before leaving.
• Do not put a fire pit on a wooden deck, directly on grass, or under a covered porch or low-hanging tree branches.
• Do not put garbage or paper products into the fire; they can easily spark and throw off embers or burning remnants.
• Supervise children around any outdoor fire, including campfires, fire pits, chimineas, and fireplaces.
• Permitted recreational fires, such as campfires, need to be at least 25 feet from anything that can burn.
• Avoid burning on windy, dry days. When conditions are windy or dry, it is easy for open burning to spread out of control.
• Where outdoor burning is allowed, never use gasoline or other flammable or combustible liquids.
• When burning, have a hose, bucket of water, or shovel and dirt or sand nearby to extinguish the fire. Extinguish with water – drown it and stir it with the shovel to make sure it’s fully extinguished.
• Dispose of the ashes in a safe manner; keep a metal can that is used solely for ash storage. Even after 2 or 3 days, ashes can still be hot enough to cause a fire. Do not discard hot ashes in a compost pile, paper bag, cardboard box, or anything that is combustible.

Randolph Rescue Squad

Help Wanted! Yes, YOUR Help is Wanted!

We INVITE you to join the Randolph Rescue Squad – we WELCOME you – we NEED you! During March and April, we initiated our recruitment program with an Open House hosted at the RRS Headquarters. Orientation and training classes for newly recruited volunteers followed. Now, our recruitment efforts and our invitation for you to join remain very much alive. This is your chance to discover if volunteering on an ambulance is right for you. You may even be invited to ride along with one of our crews. No commitment is required and no experience is necessary; just accept the opportunity to learn about the RRS, Randolph’s own community volunteer emergency medical service.

The Squad hopes you will respond to our invitation. Visit www.randolphrescue.org, check out the RRS application and submit it ASAP, and/or contact Life Member Jim McConnell by email at jmconnell@optimum.net or by phone at 973-895-2630 to set up an interview. We help you prepare and train. New members are welcome at any time of the year. We also have auxiliary members, and our drivers are CPR-trained. Volunteers of any age will discover the personal satisfaction that comes with taking on the challenges of volunteering your services. High school students not yet 18 years of age are eligible to join our Junior Corps. For information about the RRS Juniors, contact 1st Lieutenant Steve Jancarek at steve.jancarek@randolphrescue.org. We offer “Best Wishes” to our Junior Corps 2016 high school graduates: Jesse Bartl, Jackie Benedetti, Sean Casteneda, Julia Forman, Nathaniel Iruia, Jenna Luciano, Steve Schollmeyer, Jamie Shinberg, and Heather Soled.

A few months ago, the recently disbanded West Orange (NJ) First Aid Squad generously donated two bicycles as well as many spare bike parts to our own RRS Bike Team. Now that warm weather is with us, do not be surprised if you see this group of RRS volunteers riding along the trails, in the parade, at sports events, and at many stand-bys. Thank you, West Orange volunteers.

During the first quarter of 2016, the Squad answered 180 calls including medical and trauma emergencies, mutual aid assistance, motor vehicle accidents, and fire calls as well as providing stand-bys. So far this year, a total of 775.5 man hours have been supplied by our members. Of course, Dial 9-1-1 when you are in need of assistance. The Squad remains committed to providing quality, free-of-charge care delivered by well-trained volunteers.

If anyone in our community wishes to have current information about training classes, or if any group would like the Squad to stand-by at sporting events, graduations, or other gatherings, contact Captain Todd Houston at todd.houston@randolphrescue.org or at 862-881-2929.

The Randolph Rescue Squad appreciates your continuing generosity and encouragement. Your financial support helps us keep up-to-date with supplies and training. To communicate directly with our RRS President Bill Stroh, send an email to bill.stroh@randolphrescue.org or call him at 862-259-2191. Questions may be sent via email to info@randolphrescue.org. Also, there is even more to learn about us at www.RandolphRescue.org.

REMEMBER, during every season of the year, the dedicated members of the RRS hope you will “Answer the Call!” We INVITE you .. we WELCOME you .. and we NEED you to join us as members of the Randolph Rescue Squad!

The warmer weather is here, and soon mosquitoes will breed. Mosquitoes can transmit a variety of different viruses including those of recent concern, the West Nile virus and the Zika virus.

What You Need to Know about West Nile Virus
- West Nile is a viral infection carried in the blood of birds. Mosquitoes become infected by feeding on infected birds, and pass it to humans.
- West Nile virus can multiply in the human blood stream, and can affect the central nervous system. Symptoms include high fever, headaches, swollen lymph nodes and stiff neck.
- In severe cases, convulsions, coma, or even death can occur.
- There is no specific treatment for West Nile virus.
- Only one in 150 people infected with West Nile virus experiences severe symptoms; 80 percent of infected people show no symptoms at all.
- Once infected, people create a natural immunity towards West Nile virus.

What You Need to Know about Zika Virus
- Zika is a viral infection that is spread by anyone bitten by the infected mosquito. Zika virus is transmitted by the Aedes aegypti mosquito, but can also be spread sexually.
- The symptoms of Zika include fever, rash, joint pain, red eyes, and headache. Symptoms begin 3 to 12 days after being bitten by the infected mosquito, and the symptoms can last up to a week.
- There are no reports of Zika being spread by the infected mosquitoes in the United States.
- There is no treatment for Zika; get plenty of rest, drink fluids to prevent dehydration, and take medication to reduce the fever and pain.

Zika Virus and Pregnant Women
- Pregnant women should not travel to areas where the Zika virus is spreading; consult your doctor if you plan to travel to the infected areas.
- Infection with Zika during pregnancy may be linked to birth defects in babies.

How to Protect Yourself from Zika and West Nile Viruses
While outdoors, wear long-sleeved shirts and long pants, use mosquito repellent during the daytime as well as nighttime. When indoors, use air conditioning, window screens, and netting to prevent mosquitoes from entering.

How to Reduce the Number of Mosquitoes Outside Your Home
Empty places where there is standing water, such as bird baths, pet dishes, flowerpots, buckets, and containers. Do not discard leaves and grass clippings in streams or ditches.

The Morris County Division of Mosquito Control is managing the mosquito population using various methods. To learn more, visit http://morriscountynj.gov/2016/03/get-ready-for-mosquito-season/ or www.morrismosquito.org.

Departement of Public Works
For more information on any of the DPW programs, please call the Engineering Department at 973-989-7066.

Mulch is available for pickup at the Recycling Center or for delivery. Please contact the Engineering Department at 973-989-7066 for availability.

Street Sign Replacement
Two years ago, the township began a community-wide replacement of all regulatory signs. The replacement program includes stop, speed limit, yield, and other forms of traffic control signs. The goal of the program is to improve the reflectivity and visibility of our signage as per state mandate. To date, half of the township signage has been replaced. Another quarter of the township signage will be replaced in 2016, with the completion of the project in 2017.

Road Resurfacing Program
Randolph Township evaluates the condition of the road system on an annual basis as part of its on-going road maintenance program. This evaluation program is a collaborative effort between the Engineering and Public Works Departments. It combines an independent rating of the road rating system condition and the expertise of the Public Works Director and his crew who maintains the roads daily. This program keeps track of all of the 154 center line miles of township roadways.

This year we are investing more funds than we have ever invested in the past. By doing so we have increased the amount of roads that will receive a maintenance process over last year’s 15 roads. This year we are scheduled to resurface 31 roads. That equates to the completion of 3.51 miles of road last year to 6.45 miles of road this year.

The following roads are tentatively scheduled to be improved this summer.

Engineering News
Sussex Turnpike Water Main Project Phase 2 - The township has awarded the second phase of the Sussex Turnpike Water Main replacement project. The project is expected to begin in mid-June with approximately 2,200 linear feet of 12” ductile iron water main being installed between Church Road and Harvey Terrace. This will complete the water main replacement within the Sussex Turnpike reconstruction limits. It is anticipated that the project will be completed within 90 days. All affected residents and businesses will be notified in advance of traffic detours and contractor work schedules.

Millbrook Avenue Resurfacing - The township has awarded a contract for the milling and resurfacing of Millbrook Avenue. It will be partially funded with a $165,000 New Jersey Department of Transportation grant. The project involves roadway milling, resurfacing, and curb and sidewalk installation from the intersection of Route 10 East to the intersection of Everdale and Lawrence roads. The project is anticipated to begin in mid-June, and is expected to be completed within several weeks. Millbrook Avenue will remain open during the project, with an alternating traffic pattern.
